

Follow and imitate**Tambourine**

This instrument is normally played by using the finger tips of the right hand at the centre. For softer sound, use the tip of the fingers, while for louder sounds, use the palm of the hand. It can also be shaken.

**Two tone wood block**

Hold it in the left hand, and with the thin end of the beater in the right hand, strike it against one or two sides as needed.

**Claves**

Hold one stick in the right hand and strike it against the other stick in the left hand.

**Guiro**

Place the left thumb and middle finger in the holes underneath, and with the right hand draw the stick along the top of the instrument.

**Triangle**

Hold the triangle in the left hand, and with the right hand strike the triangle with the metal end of the beater.
